

and the Student-Centered Secondary Math Classroom

Wednesday
February 8, 2017
8:30 AM - 3:30 PM

8 AM: REGISTRATION BEGINS
SNOW DATE: 3/6/17

Attention: Curriculum Specialists & Secondary Math Teachers

During this 1-day professional learning workshop from Kiker Learning, participants will explore best practices in creating a student-centered, inquiry driven 21st-Century technology enhanced math classroom. Teachers will take on a student role throughout the day and will walk away with dynamic math tools, instructional strategies to improve and highlight student mathematical communication, develop a formative assessment system that supports differentiation and flexible grouping, and an effective means to blend and flip math instruction. Teachers will explore student voice and how students understand more deeply when they can communicate their findings, wonderings, and thoughts through creation.

COST:

\$125 Subscriber, \$200 Non-Subscriber

LOCATION:

2 WEST LAFAYETTE STREET
NORRISTOWN, PA 19401
