\$45

Participants from MCIU IDEA member districts can enroll at no cost.

Eligible nonpublic school participants can enroll through federal funding. See Web Registration for details.

If eligible for either, please select "voucher" for payment option.

This **unfacilitated, interactive online module** answers three questions for the general education teacher.

1. What is the Individuals with Disabilities Education Act (IDEA) and what do I need to know about this law?
2. What information is within an Individualized Education Plan (IEP) and how do I prepare for an IEP meeting?
3. How can Universal Design for Learning (UDL) be applied to meet the diverse needs of students?

Perfect for induction programs or as a refresher for any staff member. This module can be customized to include information specific to an LEA.
