WHAT IS SAP?

The Commonwealth of Pennsylvania’s Student Assistance Program (SAP), which is administered by the PA Department of Education’s Safe Schools Office in partnership with the PA Department of Drug and Alcohol Programs’ Division of Prevention and Intervention, and the PA Department of Human Services’ Office of Mental Health and Substance Abuse Services, is designed to assist school personnel in identifying issues including alcohol, tobacco, other drugs, and mental health issues which pose a barrier to a student’s success. The primary goal of the Student Assistance Program (SAP) is to help students overcome these barriers in order that they may achieve, remain in school, and advance.

Schools and agencies wishing to add SAP team members need to enroll the new team member(s) in the 6 half-day training series. Participants must attend each of the six days to meet requirements. Opportunities are scheduled at various times throughout the year at MCIU and can also be provided virtually. Act 48 hours will be reported to PDE.
